SAR – Functioning of College Clusters (Score: 50)

1. Faculty Sharing and Teaching/interaction through Virtual Classroom Among Cluster Colleges

Faculty Sharing and Teaching/Interaction through Virtual Classroom Among Cluster Colleges has emerged as an effective academic initiative during the session 2024–25, particularly for addressing the shortage of subject-specific faculty in nearby institutions. Government College Sangrah played a significant role in this collaborative effort by extending its academic support to surrounding colleges through virtual teaching modes. During the session, faculty members from Government College Sangrah actively conducted virtual classes for students of neighboring/Cluster colleges where there was a lack of teachers in specific subjects. Sanskrit classes were delivered to students of Government College Rajgarh, while Hindi and English classes were conducted for Government College Haripurdhar. In addition to this, Physical Education classes were also provided virtually to students of both Government College Haripurdhar and Government Degree College Shri Renuka Ji. This initiative ensured that students did not face academic loss due to faculty shortages and were able to continue their studies in a structured and uninterrupted manner. The use of virtual classrooms not only bridged the gap in teaching resources but also strengthened inter-college academic collaboration within the cluster. Furthermore, this faculty-sharing model worked in a reciprocal manner as well. Faculty members from Government Degree College Shri Renuka Ji, particularly from the Department of English, were deputed to Government College Sangrah to support teaching requirements. Similarly, Music (Vocal) teachers were deputed to Government College Haripurdhar, ensuring that students of performing arts also received proper academic guidance.
